

RWIS Release Notes - Release 2.1.1

May 8, 2018

Summary of Changes

Release 2.1.1 is a patch release deploying six bug fixes and making a number of minor updates to site content. Bug fixes include changes to query page error messages to be compatible with mobile devices, adding the figure title and parameter units to downloadable plots, and fixing the map menu to open and close with a single click. The release also includes removal of non-Reclamation sites in Great Plains Region. Website content changes include adding the April monthly update, adding a Vision document for the Reclamation Information Sharing Environment (RISE) and adding two announcements. See details in the table below and contact the team at rwis@usbr.gov with any questions.

Issues Addressed in this Release

Issue #	Title	Description
122	Change error notifications to not use pop-ups	Changed error notifications for missing date range values to display error on the page instead of as pop-ups so that error messages will be visible on mobile devices.
125	Map not visible on mobile due to menu placement	Redirected users to desktop version of site when screen width is less than 600 pixels and added the ability to hide the map menu.
127	Title and units are not included in downloaded image files from interactive plot	Added title and units to downloadable image files.
128	Remove USGS and NRCS sites from GP Region	Remove sites in GP region that are managed by USGS and NRCS per RWIS policy.
131	Fix map menu so that menu opens directly when three bars are clicked	Fixed bug that required two clicks to open map menu. Menu now opens with a single click using 'Toggle Menu' button.
132	Reset Query does not remove red warning text	Fixed bug to remove all error messages when query is reset.
133	Update help file, monthly updates, and announcements for Release 2.1.1	Updated the help file to fix a formatting issue, added the April monthly update, and added announcements for the April monthly update and Release 2.1.1.

139	Update splash page text for Release 2.1.1	Updated home page to include information about the Reclamation Information Sharing Environment (RISE).
142	Change instructions for Copy and Open button on query page	Revised instructions for copy and open button to clarify how to use the URL.
